**Arts, Rock/Pop/Etc., By Day, Where to Hear**

Price: \$

The Skyscrapers' otherworldly cocktail fuses glam punk and disco metal. Theo takes all the twisted bravado she perfected with the Lunachicks and unleashes creepy beauty that'll simultaneously flood your heart and sting your pucker. Think of her as a svelte Kong clasp onto the Skyscrapers, serenading the city while the sky rains laser beams. With Muthawit, Blackbeard, and A Billion Stars.
